  Strategies that Nescafe implement
  to attract Starbucks shoppers

# INTRODUCTION

This presentation provides an in-depth analysis of Nescafe shoppers and their market behavior, alongside a comparison with Starbucks shoppers. The objective is to explore how consumers engage with each brand's products and services, identifying key characteristics that differentiate Nescafe from Starbucks shoppers.

The dataset used for this analysis includes a variety of important features such as:

- Demographics Age, gender, and income groups
- Population Characteristics: Shopper behavior patterns
- ❖ Shopper Distribution: % of Nescafe Shoppers, % of Starbucks Shoppers
- Index Values: Relative performance of each demographic in comparison to the average population

Through the use of charts, graphs, and advanced Excel tools like pivot tables, this analysis uncovers valuable insights that will help Nescafe better understand their current consumers and explore strategies to attract Starbucks shoppers.

# "Who Are Nescafe Shoppers?"

Age Group Breakdown for Nescafe Buyers:

- 1. 18-20 Years: 1% of buyers from this group make up Nescafe's total shoppers, and its index of 204 shows that it is overrepresented. This indicates that Nescafe has a niche presence among this age group.
- 2. 21-24 Years: 4.8% of buyers from this age group are Nescafe shoppers, with an index of 145. This indicates that they are more likely to choose Nescafe compared to the general population, highlighting strong engagement with younger adults."
- 3. 25-34: 19.9% of buyers in this group are Nescafe shoppers, and their index of 127 reflects that they are slightly overrepresented. This makes this age range a key target demographic for Nescafe, showing steady brand loyalty. 5

Difference between Nescafe and Starbucks based on Shopper Preferences

# NESCAFE

"After analyzing the data on consumer preferences, we find that Starbucks shoppers are more likely to use online platforms, especially mobile devices and social media, to learn about products"

"Nescafe shoppers tend to rely more on traditional methods like television, print media, and radio"

# CONCLUSION:-

How Nescafe can attract/capture
Starbucks shoppers?

#### How Nescafe can attract/capture Starbucks shoppers:-

- Strategies for Nescafe to attract and capture Starbucks shoppers across different age groups, particularly focusing on the younger audience (18-24 years) and addressing the gaps in the older audience (55+ years)
- 1. Target Full-Time Employed Shoppers
  - 2. Engage Retired Consumers
  - 3. Appeal to Unemployed Shoppers

- Offer affordable pricing and bundle deals to appeal to those earning less than \$20k Appeal to Unemployed Shoppers
- Develop and market premium coffee products that can compete with Starbucks' offerings

#### How Nescafe can attract/capture Starbucks shoppers:-

- Based on the dataset, it was found that most of the Starbucks shoppers come from online sources, such as mobile or the internet, while Nescafe shoppers primarily come from traditional sources like TV, radio, articles, and newspapers. To attract Starbucks shoppers, Nescafe needs to enhance its presence in online sources as well
- Organize networking events where job seekers can gather over coffee
- Consider promotional campaigns specifically aimed at unemployed consumers, such as discounts or giveaways, encouraging them to enjoy Nescafe as they navigate their job search
